Profile

Hi, im Addo i like to learn and try new things, but it make me a jack of all trades and master of none. Im sociable enough to work well with a team, but also introverted enough to be fine working alone. I live in Ciputat South Tangerang, i prefer staying at home rather than going outside, but i will go if my friends invite me to go somewhere. I dont really have a hobby other than watching pro-wrestling or Tottenham Hotspur match
